

Solid Waste Management, Awareness campaign

Under the WHO Regional Healthy Cities Network, Rising Hopes Society, in collaboration with Jaipur Nagar Nigam, is promoting source-level waste segregation and community participation in Jaipur, with February 2026 focused on institutional partnerships and early-age awareness for sustainable impact.

MY CLEAN & HEALTHY JAIPUR

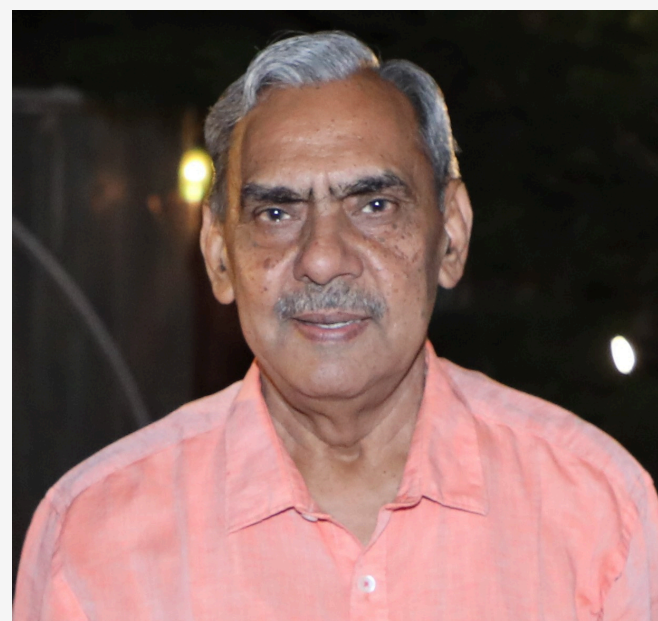

From the Leadership Desk

● Message from the President

Shri Rajendra Singh Shekhawat
President, Rising Hopes Society

February marked meaningful progress through strong institutional partnerships and school engagement. Our focus remains clear — build systems that encourage responsible waste segregation and long-term urban sustainability in Jaipur.

● Message from the Secretary

Shri Shyam Saraswat
Secretary, Rising Hopes Society

This month emphasized practical awareness and early-age behavioural change. By engaging schools and civic partners, we are strengthening grassroots participation in waste segregation efforts.

FEBRUARY 2026

ACTIVITIES & IMPACT

2 Schools Engaged | 1 Institutional Partnership | 2000+ Waste Segregation Pledges | Early-age Behaviour Change Initiated

Padmawati Public School

Early-age waste segregation awareness

- Students (Play Group – Class 1) educated on dry & wet waste
- Pledge taken to reduce landfill waste through recycling
- Positive endorsement from school leadership

Rotary Club Jaipur

Institutional collaboration for waste segregation promotion

Key Outcomes:

- Commitment to promote dry & wet waste segregation
- Decision to support segregation practices in associated schools
- Leadership appreciation for Jaipur Nagar Nigam & RHS initiative
- Strengthened multi-stakeholder partnership under Healthy City framework

SDG Alignment – Rising Hopes Society

- 🌍 SDG 11 – Sustainable Cities
Promoting source-level waste segregation in Jaipur
- ♻️ SDG 12 – Responsible Consumption
Encouraging recycling and waste reduction
- 🌿 SDG 3 & 13 – Health & Climate
Reducing pollution and landfill impact

◆ February Impact Snapshot

Health

- ✓ Institutional partnerships expanded
- ✓ Schools engaged under Healthy City framework
- ✓ Students sensitized on sustainable waste practices
- ✓ Behaviour change approach strengthened

◆ *March 2026 – Expected Impact*

- Expansion of outreach to additional social groups
- Identification of new institutions for waste segregation activities
- Strengthened grassroots engagement
- Increased community participation in source-level segregation

MGGS Govt School, Mansarovar

Grassroots environmental education

- Practical awareness session on source-level segregation
- Students encouraged to practice segregation at home
- Institutional support from school administration

Join us in building a Clean & Healthy Jaipur.

Voices from the Field
